These products are designed and developed in line with the prevailing trends and standards of the industry. Our team of professionals takes into account the requirements of our clients and offer suitable range of products.

Barbed wire usually consisting of two longitudinal wires twisted together to form cable and having wire barbs wound around either or both of the cable wires at regular intervals. The varieties of barbed wire are numerous, with cables being single or double, round, half-round, or flat and having a range of gauges. The twisted double cable provides extra strength and permits contraction and expansion without breakage.

Specifications:

- Strong. The double strand high tensile wire helps in resisting cutting of wires using pliers. ...
- Increased Security & Visibility. ...
- Long Life. ...
- Hassle-free installation. ...
- Cost-effectiveness. ...
- Versatility.

FEATURES

Regardless of the property that you are willing to protect, a Barbed Wire Fence can do the job just right, without you having to burn a hole in your pocket.

Offering unbeatable value for money, Barbed Wire Fences can be easily termed as one of the most versatile fencing solutions that can be seamlessly used in all types of property

The high tensile twisted barbed wires are made with a minimum of 275 GSM heavy galvanized wires. The life can be further increased by opting for ECOZAL (Zn 90% + Al 10) which gives the best corrosion resistance on wires.

The double strand high tensile wire helps in resisting cutting of wires using pliers. These barbed wires also don't elongate or shear during tension and retain their shape in winters and summers.

Hassle-free installation. As it is easy to install and manage once the fence posts are installed, the Barbed Wire simply needs to be stretched over the iron posts and eventually secured in place using brace caps.

We also deal in various types of product
